💼 Work Experience

Tuwaiq Academy & Alibaba Cloud   10/2023 – 12/2023
Bootcamp,   PNU, Riyadh, Saudi arabia
Solution architecture - Alibaba Cloud
Enhanced Linux shell administration skills through daily labs and tasks.
Gained comprehensive understanding of Cloud computing and Python. Earned
Cloud Computing certifications, demonstrating proficiency in cloud
fundamentals and best practices.

Ministry of Communications and   06/2024 – 08/2024
Information Technology Workshops: MCIT, Riyadh, Saudi arabia
Future Skills and AWS,
Solution architecture - AWS
Architecting the solution within AWS, building and deploying AI
applications and services within it

Creative Cloud,   01/2024 – 01/2025
Cloud Computing Networks Specialist   KAFD, Riyadh, Saudi Arabia
Cloud Consultant at Creative Cloud (Out sourcing in SCCC): Empowered
costumer with tailored cloud solutions to match their unique needs, also i
providing guidance for seamless adoption and ongoing support.

SSP, *Network & Cloud Engineer*   01/2025 – present
     Riyadh, Saudi arabia
Responsible for managing and securing the network infrastructure,
including configuring proxies, firewalls, and implementing two-factor
authentication for secure access. Tasks also involve working within data
rooms when required, as well as deploying and managing EDR/XDR solutions.
Additionally, I design and implement comprehensive network solutions if
needed like monitoring the devices, and manage cloud-based network
services—particularly on platforms like Alibaba Cloud—ensuring reliable
connectivity and service integration across the cloud environment.
